

Dear Parkmont Families,

In compliance with the DC Health Department, all students entering and attending school in the District of Columbia are required to complete a Universal Health Certificate, Oral Health Assessment Form, and show documented proof of correctly spaced immunizations or proof of medical or religious exemption (Immunization of School Students Act of 1979 - DC Law 3-20, and DCMR Title 22, Chapter 1). Please note that the immunization regulations were revised in 2008 to include new immunization requirements.

Health Forms include Health History, Physical Examination, Dental Appraisal, Immunization, and Tuberculosis and Lead Screening Certification. Forms are due no later than **August 2, 2021**.

**IMPORTANT NOTES:**

- **Universal Health Certificate:** The district requires that all students submit proof of a physical exam each year, documenting immunizations, tuberculosis assessment, lead screening and a physical exam.
- **Immunizations:** All students are required to submit proof of updated immunizations to attend school. See included list of immunization requirements. The HPV vaccine is required for all students in grades 6-12. Parents requesting an HPV vaccine refusal certificate or a religious exemption form for immunizations may contact the office ([office@parkmont.org](mailto:office@parkmont.org)) for more information.
- **All students need an updated TB test.**
- **Oral Health Assessment:** Updated dental forms are required annually for all students.
- All health forms require a doctor's signature, so make sure to set up an appointment and return them to us no later than **August 2, 2021**.
- **Your child will not be able to start school on Tuesday, September 7 unless all health forms have been turned in.**

If you have any questions, please contact the office at [office@parkmont.org](mailto:office@parkmont.org) or 202-726-0740.

Sincerely yours,

Ron McClain  
Head of School
